09958924067 • bermasjoshua12345@gmail.com • github.com/josh-brms • Legazpi, Albay, Philippines

EDUCATION

Divine Word College of Legazpi

Bachelor of Science in Computer Science | Albay, Bicol Region, Philippines

PROJECT EXPERIENCE

Hotel Rex Management System

Full-Stack Developer | Personal Web Development Project

- Designed and developed a full-stack hotel operations platform covering room bookings, guest check-in/check-out, and real-time availability tracking.
- Implemented secure user authentication, admin dashboards, and customer data management panels.
- Built intuitive front-end interfaces that improved navigation and minimized booking errors.
- Integrated backend logic for automated notifications, report generation, and conflict resolution.

Tech: Next.js 15, React 19, TypeScript, Tailwind CSS, Supabase, PostgreSQL, Recharts, date-fns, Lucide React

STMS — Student Task Management System

Full-Stack Developer | CSPC 321 – Software Engineering (Group 3)

- Built a full-stack academic task management system with role-based access for students and admins.
- Implemented secure JWT-based authentication via Supabase Auth with Row Level Security policies.
- Enabled students to create, prioritize, and track academic tasks (assignments, quizzes, projects) with real-time status updates.
- Developed an admin panel for cross-student task oversight and user account management.
- Designed PostgreSQL schema with RLS policies; deployed live on Vercel.

Tech: React 18, TypeScript, Tailwind CSS, Supabase (PostgreSQL + Auth), React Router v6, Vite, Lucide React
